Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to the Request for Continued Examination filed on January 31, 2008, in which claims 1-3, 6-9 and 10-12 are presented for further examination.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 31, 2008 has been entered.

Specification

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The Applicant fails to provide antecedent basis for the claim terminology "tangible storage medium".

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 2162

5. Claims 10-12 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 10 recites “tangible storage medium”. The context the tangible storage was used in the claim would fairly suggest to one of ordinary skill only appropriate manufactures within the meaning of 35 USC 101 which are structurally and functionally interconnected with the program in a manner which enables the program to act as a computer component and realize its functionality. Absent an explicit and deliberate definition in the specification or limiting claim language, the broadest reasonable interpretation of “tangible storage medium” which would be fairly conveyed to one of ordinary skill in the art is a “produced computer program”. Claim 10 fails to fall within a statutory category of invention. The claims 10-12 are directed to a program itself, not a process occurring as a result of executing the program, a machine programmed to operate in accordance with neither the program nor a manufacture structurally and functionally interconnected with the program in a manner which enables the program to act as a computer component and realize its functionality. It is also clearly not directed to a composition of matter. Therefore, claims 10-12 are non-statutory under 25 USC 101.

Allowable Subject Matter

3. Claims 1-3 and 6-9 allowable in light of the applicant arguments and light of the prior art made of record.

4. Claims 10-12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101, set forth in this Office action.

Art Unit: 2162
